

12 selected

Track 03
Volume -0.3 dB

Track 04
cutoff frequency 530 Hz

No Output
Volume Off

The screenshot shows the Logic Audio software interface in 'Arrange' mode. Two tracks are visible: Track 03 and Track 04. Track 03 contains audio for the word 'wind' and has a yellow automation line that starts at approximately -0.3 dB and gradually decreases to about -0.7 dB by the end of the clip. Track 04 contains audio for the words 'bobby lyle', 'bobby', and 'bob', followed by a clip labeled 'bobby lyle 1.20' and 'windmills'. It has an orange automation line that starts at approximately -8.2 dB, rises to about -0.7 dB, and then drops sharply to about -10 dB at the end of the clip. The interface includes various controls such as volume, EQ, and sends for each track. The top of the window shows the menu bar and the current time is 12:40 PM on Thursday.
